## WILSON OPENS AT COLUMBUS, OHIO

THE NATURE OF PRESIDENT'S SPEECHES CAN BE DETERMINED BY HIS SPEECH LAST NIGHT.

By the Associated Press  
COLUMBUS, Ohio, Sept. 4.—President Wilson, opening his country-wide speaking tour in the interest of the peace treaty and the league of nations, declares in his first address here today that his purpose was "to go out and report to my fellow citizens."

"The only people to whom I owe any report," said the president, "are you and the other citizens of the United States."

The president said it "seemed increasingly necessary" that he should make such a report, because he had read many speeches about the treaty and was unable to gather from any of them what the treaty contained.

Speaking to a crowd which jammed Memorial Hall, the seating capacity of which was estimated at four thousand, the president's declarations were frequently interrupted by cheers. The meeting was presided over by Dr. W. O. Thompson, president of the Ohio State University, and the president was introduced by former governor James E. Campbell as "the first citizen of the big, round world."

Mr. Wilson began by saying that he "chafed under the confinement at Washington," and was glad to get out to make his representations to the people. "In the first place," he said, "the treaty undertakes to punish Germany, but there is no thought to overwhelm or crush any one people."

Restraint had been exercised, he said, and there was provision for making the reparations no greater than Germany could afford to pay. The president said he had been astonished at statements made about the treaty, and was confident that many of them were made by men who had not read it or who had failed to comprehend its meaning.

Not to establish the league of nations, the president said, "would be unfaithful to those who have died."

"Italy," the president continued, "had presented to the peace conference a contrary proposal in her request for Fiume. Although there were only a few settlements there Italy wanted the settlement for neutral purposes." If there were a league of nations, he asserted, it would not need that foothold.

The president appealed to his audience to exercise their influence for an early acceptance of the treaty.

"Don't let any one pull it down," he said, "and don't let them misrepresent it. When this treaty is accepted the men in khaki will never have to cross the seas again."

"The treaty also contains," the president said, "a magna charta of labor," which would set up an international labor organization. This organization, he said, would hold its first meeting in Washington in October whether the treaty is ratified by that time or not.

The president appealed to his hearers if they would not read the treaty themselves, to at least accept the account of its contents as given by those who made it.

Mr. Wilson said he had heard a great deal about the selfishness of other nations, but that in reality there was unanimity at Versailles. "We were under instructions, and we did not dare to come home without fulfilling those instructions. If I could not have brought back the kind of treaty I did bring back, I would never have come back," said the president.

## AIRPLANE, WHEN SHOT WAS ON THIS SIDE

By the Associated Press  
WASHINGTON, Sept. 4.—The American Army airplane fired upon by Mexicans Tuesday was "at no time over Mexican territory," the war department was informed today by Major General Dickman, commanding the southern department. Mexican officials claim that the machine had crossed the international boundary line before the Mexicans opened fire.

## AUSTRIA TO BE GRANTED TWO DAY REPRIEVE

By the Associated Press  
PARIS, Sept. 4.—The supreme council of the peace conference has decided to grant the request of the Austrian peace delegation for a two days' delay in the time for the presentation of the Austrian reply to the terms of the treaty.

## United States Lags Far Behind England-France in Road Building

While to many America's appropriations for highways may seem formidable, to the ardent good roads agitator it is but a start toward a much needed, long delayed development, says the B. F. Goodrich Rubber company.

In comparison with populations, both England and France have made and are making more progress than has America. Congress has appropriated \$275,000,000—for expenditure up to and including 1921—for improvement of the 2,500,000 miles of roads in the United States. France plans to spend \$152,000,000 on her national system of highways, which comprises 65,000 miles. England has appropriated \$50,000,000 for expenditure on her 150,908 miles.

England has 239 citizens to every mile of road; there are 108 Frenchmen to every mile and in America there are but 42 persons to the mile. On the basis of these figures, the highway system of the United States will not equal the ratio of French mileage to area until we have 5,000,000 miles of highway, while 7,500,000 miles will be necessary to meet the English ratio.

## SOCIALISTS ARE BEING WATCHED

AGENTS OF THE DEPARTMENT OF JUSTICE KEEPING TAB ON THEIR CHICAGO MEETINGS.

By the Associated Press  
CHICAGO, Sept. 4.—Despite the plea of Rose Pastor Stokes, the communist party has put into its platform a provision that no person receiving money from rent, interest or profit can belong to the party. Not only Mrs. Stokes, but Wm. Bross Lloyd who signed the appeal bonds which released a number of I. W. W.s from the Leavenworth penitentiary recently, is barred from fellowship.

The communist party members, radical socialists, who left the national socialist convention now in session to organize along more pronounced lines, also decided that doctors, lawyers and editors can have no part in the "coming revolution."

The communist labor party, also an offshoot from the national convention, also adopted a program. It plans propaganda for a new republic based on that of Russia, with the shop and factory as the all important unit. Each of the conventions is being watched by agents of the department of justice.

## Trial of Kaiser at Monte Carlo Hailed as Fete

By the Associated Press  
PARIS.—A suggestion that the trial of the kaiser be held at Monte Carlo is finding marked favor among the delegates to the peace conference, in view of the growing opposition to the plan for the holding of the trial in London.

Mention of Monte Carlo has been hailed as a brilliant idea and while the prince of Monaco has not yet been consulted, it is believed that if the question were put to him by the powers with assurance that they would protect Monte Carlo against any reaction in the future, his consent would be forthcoming.

The world's greatest gaming resort suffered greatly for lack of patronage during the war and undoubtedly would welcome the advertising to be derived from selection as the place of the trial of the former German kaiser, provided it were safeguarded against adverse after-effects.

It was the possibility of such after-effects that the Belgians opposed the selection of Brussels, although the Belgian capital seemed to be the place designated by poetic justice. Paris does not want the trial nor does Washington, and it is doubtful if Switzerland, Holland or any of the other neutral nations would consider it.

## Habeas Corpus Proceeding.

Joe Watson went before Judge Bolen yesterday in district court and asked to be habeas corpus out of a duration vile. Joe had received a pretty stiff fine in police court for unlawful possession of several gallons of choc and had made his appeal to the county court. In the meantime his attorney, E. S. Ratliff, instituted habeas corpus proceedings in district court on the theory that the city ordinance under which Watson had been fined had never been legally adopted and was therefore null and void. The court overruled the plea, however, and the case will be tried in county court.

## SERBIA DON'T LIKE THE PEACE TREATY

TAKES SAME ATTITUDE TOWARD TREATY WITH HUNGARY AS WAS TAKEN BY ROUMANIA.

By the Associated Press  
PARIS, Sept. 4.—Serbia seems likely to adopt the same attitude as has Roumania toward the Austrian peace treaty, says the newspaper *Pepit Parisien* today. According to information from a most authoritative source this newspaper says that the Serbian government feels that it cannot accept the treaty unless there is modification of certain clauses concerning the protection of racial minorities which Serbians consider is an infringement upon her sovereignty.

## Bernard Shaw Says Doctors Are All Wrong

By the Associated Press  
LONDON.—Physicians and surgeons are all wrong, and they've been barking up the wrong tree, George Bernard Shaw says so. He ridicules people who pay big fees "to be told their intestines are too long," declares vivisectionists who regard the human organism as a mere mechanical thing or chemists who think of it as a chemical thing are idiots. Shaw thinks surgeons and physicians should study human anatomy from the biological aspect of life.

"Here am I, a mass of carbon and sodium," Shaw told a meeting organized to abolish vivisection. "There is any amount of these chemicals lying about. Now, what has assembled them into this thing you see before you called Bernard Shaw? What is it that has taken them and holds them together in this strange and fantastic shape, making a curious noise, and getting them into this bone box, in which there is an amazing brain?"

"Imagine a man dealing with that miracle and imagining he can treat it as a mere mechanical or chemical thing. The thing is inconceivable. The man who does that ought to be ruled out, not merely of the medical profession, but of the sweeping of crossings."

## COMMISSIONER HERE TOMORROW AFTERNOON

Chairman R. E. Echols of the Corporation Commission will not arrive in Ada in time to hold the hearing on the complaint on the local ice company at 10 o'clock tomorrow morning as has been announced previously, but will be here in the afternoon. The hearing will be in the district court room and will begin at 1:30 o'clock. Mr. Echols will reach Ada on the morning Katy from Oklahoma City.

## The Fall Is Here

Three months of spring and three of summer have passed since Nature put on her 1919 habit of green; and now we enter upon the first month of fall.

The seasons here merge so smoothly and so gently one into another that the line of demarkation between them is scarcely discernible, and ordinarily we are "knee deep" in the new one before realizing that the old has gone!

So it would be in this instance, perhaps, but for the calendar; although there is in the air that unmistakable something that instinctively tells man, the birds and the squirrels that summer is about to bid us adieu and that fall is waiting to take possession of the land to prepare "all that dwell therein" for the more exacting winter that is on the way.

To the north, east and west of us, the coming of fall calls a halt on growth. It finds the field crops harvested, for the most part; the landscape "brown and sear;" and it heralds the ripening of nuts and the later fruits, and the hardening of corn. Toward its end comes snow.

But in Oklahoma—"the land of the fair God"—it by no means savors of death—it simply forewarns growing things of the approach of frost, thus spurring Nature on to greater speed in completing her plans for the year's production, and it hastens floral life to maturity.

After a little while from now the wooded hills and valleys will put on their gypsy raiment, and in about another month the whole landscape will be bedecked in all its kaleidoscopic autumn finery. A few weeks more, and then—winter.

This year we enjoyed a delightful spring; the summer was really above the average, as summers go—moderate in temperature and with just the right measure of rainfall—and the autumn opens with every indication in its favor. The traditional signs of nature bespeak for it fair skies; balmy air, blending into healthful crispness and enough precipitation to insure ample development of the season's crops and flowers.

There is medicine in an Oklahoma fall. There is something about it that breeds hope, good cheer and contentment.

It is a season such as is calculated to make optimists of us all!

## THOUSANDS HAVE QUIT THE SOCIALIST PARTY

By the Associated Press  
CHICAGO, Sept. 3.—War and the withdrawal of radical insurgent elements have reduced the membership of the national socialist party in this country to 42,217, according to a report read today at the convention of the organization. Before the war the socialist party claimed a membership of 117,000.

The delegates applauded for several minutes when a report was read that Emma Goldman had been released from prison two weeks ago. The new communist party of America adopted a platform after wrangling over the phraseology nearly all day. It declares the party in full harmony with the revolutionary parties of all countries.

John Reed of New York, presented the report of the committee on program and labor, which was said to be the most radical declaration of principles ever issued by a political party in the history of the country. The lengthy document is said to have been largely copied from the program of the soviet republic of Russia.

## WEATHER CONDITIONS FAVOR COTTON CROP

By the Associated Press  
WASHINGTON, Sept. 3.—Temperature averaged near normal and rainfall as generally night to moderate in most sections of the cotton belt, according to the weekly bulletin of the department of agriculture today.

Cotton made fairly good progress as a result except in portions of North Carolina, in Florida and in the south-central portion of the belt in which it was mostly poor. Fair progress was made in Georgia, said the report, and cotton was opening rapidly in the central and southern portions of the state. Picking has progressed northward to central South Carolina, but the work has made slow advances in the lower Mississippi valley where the crop is late and opening slowly.

## EACH COUNTY TO HEAR PRESIDENT

WHEN HE VISITS OKLAHOMA CITY EACH COUNTY WILL HAVE SPECIAL SEATS RESERVED.

By the Associated Press  
OKLAHOMA CITY, Sept. 4.—Every county in Oklahoma will have representatives at the fair grounds auditorium when President Wilson speaks Friday evening, Sept. 26, according to an arrangement decided upon at a meeting of the general committee with Governor Robertson yesterday.

A block of seats on the stage, in the wings at the sides of the stage and the first ten rows in the body of the auditorium were set aside to be divided according to population, among the counties of Oklahoma. Tickets for these allotted seats will be apportioned by a committee composed of Ben LaFayette, Mayor Walton and Vernon Whiting of Pawhuska.

The state fair association will open the grounds for free admission at 6 o'clock Friday evening. At the same hour the doors of the auditorium will be opened and the "first come, first served" policy will prevail until the big hall is filled to capacity. After a personal inspection of the auditorium yesterday, Governor Robertson said he believed 10,000 persons could hear the president if all available standing room is filled.

Probably you think a livestock pavilion is not a very sweet place in which to pack 10,000 people to hear an address by the president of the United States.

Auditorium to be Disinfected.  
Ralph Hemphill, secretary of the state fair association, assured Governor Robertson and the general committee on arrangements yesterday that a rose garden would have nothing on the big hall Friday evening, Sept. 26, although judging of cattle in the arena will not be completed until late Thursday.

## INDIAN SCHOOL AT SHAWNEE IS CLOSED

By the Associated Press  
SHAWNEE, Okla., Sept. 3.—The Shawnee Indian Agency announced this afternoon that the Shawnee, Potawatomie, Sac and Fox, Iowa and Kickapoo Indian school located two miles east of this city was closed.

The action was taken after the order was received from the department of interior that Indians should attend the public schools when possible. The school here cared for one hundred and twenty-five pupils last year but with a very few exceptions all the children can attend public schools near their homes. The children still dependent on the school for an education will be sent to other government schools.

The local school was founded in 1872 by the Quakers and taken over six years later by the government. There is talk here that the state authorities will likely occupy the buildings, all of which are in good shape, for the girls' industrial home.

The school has been awarded to Tecumseh near here and the present site of the school is midway between the two cities.

## Pontotoc County Shriners Plan For Big Picnic

The Pontotoc County Shrine Club has announced a big picnic for Tuesday, Sept. 9th, lasting from ten o'clock in the morning until six o'clock in the evening. The picnic will be held at Francis, and at 7:30 in the evening Francis Lodge No. 178, A. F. & A. M., will confer the Master Mason's degree in full form. All Shriners and Freemasons of Pontotoc County are invited to attend the lodge on this occasion.

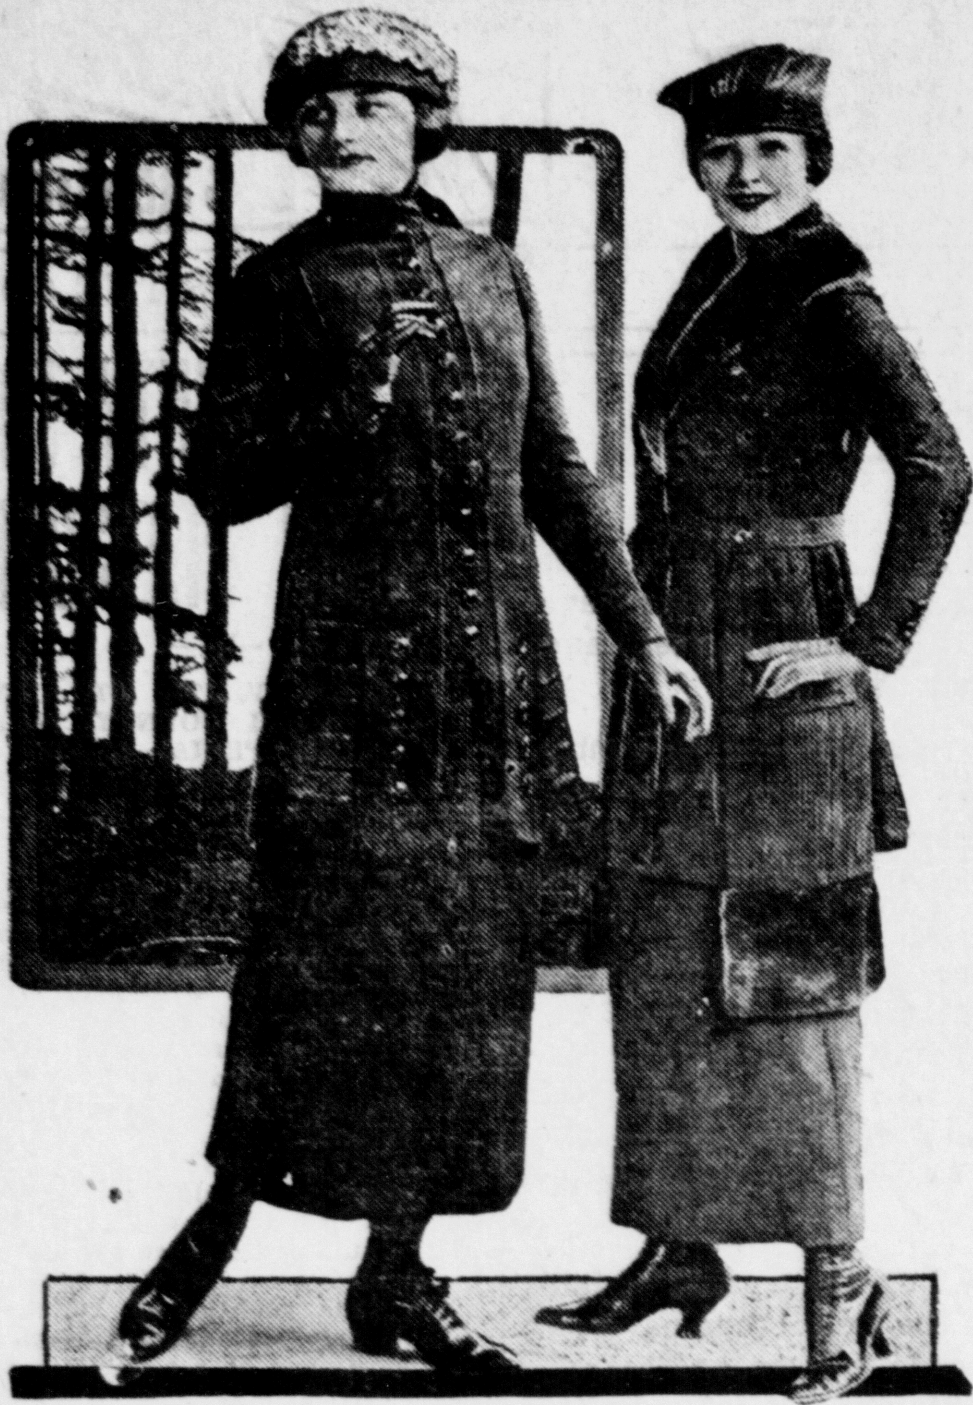

The program announces a parade of Shriners with fezes at 1:00 p. m.; an address by the president of the Pontotoc County Shrine club at 1:30; lunch at 2:00; ball game by Shriners at 4:00 and races at 5:00 p. m.

The Pontotoc County Club is composed of a live bunch of fezz wearers and they are looking forward to a big time on this occasion. All Masons in the county are invited.

## Suits Reveal a Choice in Silhouettes

It is a little difficult to sum up the styles in suits when they are in the experimental stage. Some of the new features in them may prove short-lived and therefore not develop into fashions, but it is evident now that we are to have a choice of two silhouettes this fall. The matter of cloths is also settled and these range through several weaves, beginning with homespun and serviceable tweeds and progressing to velours, duvetyne and zibeline cloths. Besides many similar weaves with a suede or velvet finish, of the same character as duvetyne, are dominant in the handsomer suits.

Skirts have not been shortened in the face of the precedent set by Paris. For street wear they remain ankle length and are generally plain. The coat's the thing. Designers have developed it, with many clever variations, along the straight lines with which we are familiar, and along Godet lines with full rippled basque worn over either a full skirt or a plain, fitted one. These straight-line coats are longer than those of last season, and are belted. On the formal suits fur and silk embroidery provide rich decorations.

The outstanding features in the new styles appear in two suits shown here.

One of them is a utility model depending upon wide tucks and conspicuous buttons for garnishing. The three-quarter length coat, with narrow front panel, buttons straight up the front. This panel is flanked by wide bands of cloth at each side and extending below it. These bands appear at each side of the back also, and five buttons on each band mark the termination of five wide tucks in the side panels, that disappear under the bands. The narrow belt slips under straps of cloth and fastens with a small buckle at the front.

A dressier suit of velours shows a repetition of set-in panels at each side of the coat, but these panels are made of narrow vertical plaits set on under the arms. They extend eight inches below the bottom of the coat and are finished with a band of fur. There is a long shawl collar of fur, and the narrow belt of cloth fastens with a button at each side. Soft furs, like seal-skin, squirrel, mole, and racoon and other pelts which are not so easy to recognize, are chosen for suits, but the limits of our choice are much wider than these.

## AMERICAN CRACKS SHOOT FOR BELGIUM CONTEST NEXT YEAR

By News' Special Service

The Indians, the leading trap-shooting organization of the United States, comprising crack shots from all over the country, have pledged themselves to see to it that this country is represented by ten amateur crack shots in the Olympic international games at Brussels, Belgium next year.

At the close of the national tournament in Denver, Tom A. Marshall of Chicago, a big chief of the Indians and captain of the 1901 United States shooters who went all over Europe and were never beaten, started to pick the team that will represent the United States. He said that the American team undoubtedly would be composed largely of Indians.

On the team probably will be Woolfolk Henderson of Lexington, Ky.; F. C. Hoch, Brooksville, Ohio; Ben Donnelly, Chicago; Max Kneuse, Ottawa, Ill.; Walter Peacock, Chicago; G. E. Painter, Pittsburgh, and C. A. Bogert, Sandusky, all Indians.

"The Americans have proven in the war and at the traps that they are the best shooters in the world," said Marshall. "And we intend to win the Olympic event next year at Brussels."

A representative of the Belgian government in New York recently made preliminary arrangements for American participation in the international shoot. The American Trap-shooting association may be asked to help in organizing the American Olympic team.

## Jews of World Look Forward to Zionist Meet

By the Associated Press

CHICAGO, Sept. 4.—Because of the impending realization of the age-long dream of the Jews of the world, a homeland—the coming Zionist convention here, which will begin Sept. 12 in Palestine, is attracting world wide attention. Some of the foremost members of the race will attend, including Justice Brandeis of the United States Supreme Court; Dr. Chaim Weizmann of London, England; a member of the Palestinian Commission; Judge Julius Mack of the United States Circuit Court, president of the Zionist organization, and many others.

Features of the convention will be a mass meeting at the Auditorium theatre where all the sessions of the convention will be held; a "restoration parade" through the streets of Chicago in which it is estimated more than 30,000 Zionists will participate; a ball at the First Regiment armory and meetings throughout the city to be addressed by prominent delegates.

Plans for the "rejuvenation of

distinctive Hebrew culture in its cradle—Palestine—are to be outlined, it is announced. These include provision for centers of such culture, a Jewish university and school system, a great printing establishment designed to be the center of the world's Hebrew literary effort, and other cultural agencies. By these means it is hoped to stimulate Jewish culture to again exert a wide and beneficial influence and bring about another golden age of Jewish literary and artistic influence.

On the more practical side, the convention will take up the questions of financing the new state, arranging for its agricultural and industrial development and the provision of homes for Jewish refugees and the oppressed from many lands.

A feature of the parade will be a detachment of the Jewish Legion which fought for the restoration of the Jewish homeland in the Legion of David, which formed a part of General Allenby's conquering army.

## MODEST AVOWAL.

"Is this the office of the Toadville Clarion?"

"Yes, sir," answered the rubicund old gentleman who was lounging in the doorway with a corn-cob pipe stuck in his mouth.

"And is it the leading paper here?"

"Sir," replied the old gentleman with an impressive air, "I feel that it is a duty I owe myself and my family to tell of Toadville. Furthermore—ahem—there is no other paper here." —Birmingham Age-Herald.

## No Sense of Humor.

"Mrs. Jagshy."

"Well, Mr. Jagshy?"

"When I came home last night—er—we'll say at a late hour, did I retire in good order?"

"In fairly good order, Mr. Jagshy, but I once saw a comedian on the stage try to catch his bed as it came round to him and I did not think his performance at all funny."

## UGLY CHARGE.

"I understand Mrs. Twobble and Mrs. Gadspar have had a falling out."

"Alas, yes."

"Is it serious?"

"I fear so. Mrs. Twobble makes the charge that when Mrs. Gadspar borrowed a quarter of a pound of butter she returned an inferior brand."

## Receptacle for Hairpins.

Mrs. Styles—This paper says that in front of a large London building there was recently found a pigeon's nest made of hairpins. Where do you suppose the pigeons found the hairpins?

Mr. Styles—Oh, I suppose a lot of women in the vicinity couldn't keep their mouths shut.

## Caustic Words.

"Is the jury still out?"

"Yes," said the sarcastic lawyer for the defense. "And I'm not surprised."

"No?"

"When I looked in the faces of those jurors I could see there was 'nobody home.'"

## SETTING THINGS RIGHT.

"I am told that you referred to me as an ogre."

"The idea?"

"Don't try to evade the issue, madam. Did you or did you not call me an ogre?"

"Certainly not. I wouldn't be so unkind. I merely said your face threw my little Christopher into convulsions."

## PIRATES' TROVE IN SCOTTISH HILLS

EXCAVATORS AT EDINBURG UNCOVER HOARD OF BATTERED SILVER VESSELS; NEAR ROMAN FORT.

By News' Special Service

LONDON—Discoveries in Scotland of great historic value have recently been added to the Queen street museum.

As the traveler to Edinburgh by the North British railway approaches Dunbar he describes on his right, far out to sea, the Isle of May; on his left in front, a green hill, a northern outlier of the Lammermuirs, cuts the skyline.

This is Traprain Law, on the Whittingehame estate of Mr. A. J. Balfour, and here, within the precincts of an ancient fortified site, remains have just come to light which Dr. George Macdonald describes as "one of the most remarkable archaeological discoveries ever made in northern Europe."

Excavations were commenced on this site some five years ago by A. O. Curle, keeper of the Queen street museum, Edinburgh, brother of James Curle, the excavator of the new famous Roman fort at Newstead. The fortified area, which covers some sixty acres, gives evidence of occupation at intervals during the first four centuries of our era, and about a fortnight ago the explorers suddenly struck a small pit which was filled to the brim with a hoard of battered silver vessels, the find being at once dated to the late fourth century by the occurrence of coins of the Emperors Valens and Gratian.

Much time and labor must necessarily be devoted to this precious treasure-trove before it has yielded all its secrets. Meanwhile its history is conjectured to be somewhat as follows:

The site at Traprain Law had given evidence of having been at first perhaps a Celtic settlement under Roman rule. It now appears that its latest inhabitants were Saxon pirates. The treasure just discovered seems to have been brought by these freebooters as loot from some rich Christian church in northern France and buried here for safety. The fact that the silver vessels are crushed and battered would seem to imply that they were regarded as mere booty and intended for the melting pot.

The vessels themselves include flagons, chalices, platters, bowls, spoons and so on. They bear Christian symbols, such as Chi-Rho, Alpha Omega and Jesus Christus, and the scenes portrayed in relief are mainly from Bible history.

One richly decorated flask, the gem of the collection, is an embossed cup bearing a punctured inscription, Prymaceisapi, which has not so far been deciphered. It is not yet possible to decide whether the collection is the spoil taken from a single church or gathered from a number of different places. Some of the vessels are gilded, some enameled and some inlaid with gold. In all cases the technique is admirable. Some of the designs could hardly be surpassed in the skill with which purity and grace are combined with elaboration and variety.

No doubt this discovery will give a fillip to the zeal of excavators after the long delay due to the war. The excavations at Traprain Law had been resumed as the result of the liberality of an individual and had only been in progress a fortnight when the treasure was struck.

Mr. Balfour had agreed at the outset that all finds should become the property of the nation and these have been transferred accordingly to the Queen Street museum. The silver of which the vessels are made is exceptionally pure and it may be possible to restore them to their original shape. It is to be hoped, however, that this will be undertaken with great care.

## Kansas "Murder Farm" Mystery Most Noted Yet

By News' Special Service

TOPEKA, Kans., Sept. 4.—Not since the disclosures surrounding the finding of the remains of eight victims, buried near the notorious Bender road house in Labette county, way back in 1873, has Kansas experienced a "murder farm" mystery such as recently has been brought to light in the little town of Maple Hill, 18 miles west of this city.

This month three human skeletons have been found at Maple Hill, on premises formerly occupied by Rufus King, who for 12 years ran a livery business in that village. In each case a coroner's jury found that the victims had been murdered and King now is confined in the Shawnee county jail, confronted with three charges of first degree murder. He was brought to the jail here from Alma, Kans., for fear of an attempt at lynching, officers declared.

The three men, whose skeletons have been identified, disappeared years ago. Search for others continues. King denies any knowledge of murders of men "being buried with their boots on" about his place. In each of the three cases, however, at the time the men disappeared, King offered plausible explanation. The fact that he possessed property of the men in each case, after the disappearance, he explained by declaring he bought it. He even went to relatives of two of the men and told them of the departure "on the night train" of the men and confided alleged reasons why they "had to leave town in a hurry."

The three skeletons have been identified as those of Reuben Gutshall, 22, son of a farmer, disappeared Dec. 8, 1913; John Woody, 20, disappeared in 1909 after winning \$140 in a poker game in which King was a heavy loser and after spending the night with King at the barn; an itinerant jewelry peddler, name unknown; disappeared in 1908. Skeleton found August 14, 1919, in shallow grave in barn lot; skull crushed. Identification by trinkets worn by peddler.

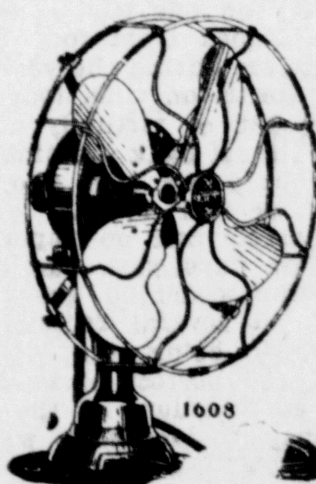

As to quantity of cheap jewelry found in King's home recently by officers, the prisoner explains that the peddler left it with him, but "never came back after it."

After Gutshall "left town" King was in possession of the young man's team of horses and wagon. He declared that he bought it of Gutshall.

## Wilson's Steady Temper Averted Peace Explosion

By News' Special Service

PARIS—That President Wilson's even temper and good humor were among the saving graces of the many tumultuous days of the peace conference is now freely admitted by all who participated in the historic meetings.

The human side of the president was always to the fore, whether in the secret councils of the 'Big Four' in the banquet hall, in conversations with the American commissioners, newspaper correspondents, or various and sundry delegations that visited him, or when driving through the innumerable boulevards and parks where he and Mrs. Wilson had become such familiar figures to the general public.

An instance of presidential humor which has occasioned considerable amusement among those who were closely associated with Wilson during his long stay in Paris was his reply to a question put by a newspaper correspondent when, two days before he sailed for home, the president invited the American journalists for a chat with him at the Hotel Crillon.

"What about Poland?" the correspondent asked.

"What about it?" repeated the president.

"Well, isn't there more or less fighting going on there now?"

"Oh, yes," answered the president, "rather more than less, I should say."

Bring in that picture and let me frame it for you.—C. A. Cummins.

## School Days

will soon be here---

Next month the little ones will be starting off to school again to continue their education, and parents should remember that success or failure depends largely upon the condition of the eyes. All children should have their eyes examined before entering school and now is the time to attend to it. Great injustice is done to many children by accusing them of obstinacy, inattention and stupidity, when, as a matter of fact, they are only victims of physical defects of sight. Such children, with the proper adjustment of glasses, often become the brightest of scholars.

## AGED VET WRITES LETTER OF PRAISE

Confederate Soldiers' Home, Ardmore, Oklahoma.  
As coming events cast their shadows before, we were looking forward to the annual reunion at Ada, so about twenty of the members of the Home and Tate Brady Camp, U. C. V., with a contingent from Ardmore boarded the Frisco on the morning of the 26th of August and arrived in Ada about midday when we were met by a goodly number of the citizens, many with automobiles. The ever present Boy Scouts were there and by their alert and manly demeanor, that bodes much good for the future of the home city, we were driven to the large Normal building. The activities incident to a state reunion were held there. The first thing on the program was to register. Between 200 and 300 registered, and probably a great many failed to register. Large barracks and other rooms were provided and furnished for lodging the bulk of the veterans, and the overflow was assigned to the homes of the good citizens of Ada and I heard nothing but praise for the whole-hearted way in which we were received and entertained. The lower floor on the east part of the building was used for a kitchen, where three regular meals were provided for all comers. The cooks, waiters, and all others connected with that part of the service deserve great praise.  
There were many on the speakers' program. I might mention Hon. Luther Harrison, a distinguished citizen of Ada, and his eloquent and inspiring address had the true ring of patriotism and devotion and best traditions of our loved Southland. Hon. A. N. Lee, representing Gov. Robertson, made an able and entertaining address.  
The downtown program Wednesday night consisted of the fiddlers' contest, singing and dancing, which lasted until late at night, and which was much enjoyed by the old vets.  
Thursday was given mostly to unfinished business by committees and delegates and the ride over the city in automobiles closed the much enjoyed reunion and we all felt that we had indeed been among friends.  
As I looked at the gray heads and bent forms of those old veterans, the thought would occur to me, how many will be able to be at Ardmore next year. Some will have answered the last roll call and heard the last earthly reveille. May we all be prepared when God's grander reveille shall rouse to ranks renewed the valiant of every clime and age.

Augusta, Ga., May 20, 1919. "I suffered with rheumatism and indigestion and at times could not use my arms to feed myself. I tried every remedy I heard of with only temporary relief. I was advised to try Number 40 For The Blood which I did with splendid results. While I am not entirely well I feel like a different man and expect to continue Number 40, believing it will cure me. ## To Get Back to Christ Plan of Presbyterians in Big Lake Geneva Meet

By the Associated Press  
LAKE GENEVA, Wis., Sept. 4.—"To bring men back to the spiritual standard, to make Christ's principles a vital and impelling force in the reconstruction of society, and to teach men to think true and live true, is the mighty task to which the church is called," is the opinion of Secretary of State Robert Lansing, expressed in an address to the New Era Conference of the Presbyterian church, now being held here to lay out a five year program for the organization, covering the new problems and conditions in which the world finds itself following the great war.  
"This is a time for remodeling and reconstructing," Secretary Lansing said. "Out of the ruins of the old world order shattered by the war there must be erected a new structure based upon the sounder principles than those which were the foundation of the old. New ideas and new conceptions of society's obligations to the individual have been released, and there is manifested a radicalism in their advocacy which threatens the disruption of the present social order."  
"The peril lies in the exaltation of physical might, the false doctrine of the right to do because of the power to do, and assumption of selfish desire as the ultimate motive of human action. The world can only meet this grave situation by renewing and strengthening its spiritual life, by turning away from materialism and implanting in men's souls those great fundamental principles which Christ taught and which He manifested in His life on earth."  
The character of the New Era, the Secretary of State added, will depend upon whether materialism or

spiritualism dominates mankind and "it is for a living, aggressive Christianity to win in this supreme conflict and to vanquish evil ideas which now seem so potent in the world."

## WHEN GEN. PERSHING VISITS THE OLD HOME

By the Associated Press  
LACLEDE, Mo., Sept. 4.—When Gen. Pershing visits this town, the place of his birth, which he has promised to do, probably next month, he will find things little changed. Many persons whom he knew as a boy are still here, and the march of industrial progress has trod softly in Linn county; certainly nothing has been marred. Mostly he will find the same friends living in the same houses that they did a generation ago, exchanging local gossip in the same cozy stores; going to the same churches and their offspring attending the same schools.  
The local committee is striving for a program which while reflecting the pride felt in the city's most distinguished representative, will at the same time revive in the guest the feeling that he is among home folk.  
"In essentials the place is so little changed that I think he can turn back the clock forty years without much effort of the imagination," said Mayor Allen.

There will be music and oratory, and a holiday throughout the entire countryside, and all the tried chicken which promises to feature the feasting, the tenderest and most succulent, will be available to the general at every board.

## THE PRINCE OF WALES WANTS MORE DEMOCRACY

By the Associated Press  
DETROIT, Mich., Sept. 4.—The Prince of Wales, who tried out democracy in the dances of the demoboy in the war zone and found it diverting, wants more of it, and the hint has gone out to the border cities which he is to visit, including Windsor across the river from Detroit, Oct. 23.

Many citizens of Michigan as well as of Ontario will attend the reception to the Prince in the Windsor armory, and some of them were surprised, upon applying for reservations, that the royal visitor opposed even that concession to formality, and that all will have precisely the same chance to see and hear the Prince on a basis of first come first served.

## "HIS MASTER'S VOICE"

The longer the senate debates the treaty of Paris the more apparent becomes the basic reason for its opposition and the more perceptible becomes the cloven hoof. From a campaign of inconsistent vituperation the league's opponents have finally advanced to a specific plea for Germany and an open attack on the allies. The shrewdest plotter ever sent to America by the Princes of Potsdam never made a more effective fight or one more undisguised for the aid and comfort of the Hun.

The plea of Knox for more lenient terms for Germany would have brought him to the shadow of the gallows if made outside the senate during the angry days of war. When our soldiers were dying in the Argonne his speech would have been unvarnished treason and would have been accepted as such, because it would have weakened the lines of our armies and shaken faith in our cause. Lending aid and comfort to the enemy during the war period would have betrayed antipathy to our cause. Even though we are at peace, it displays the same antipathy today.

The admission of Irish and Egyptian delegates into the secret councils of the senate committee betrays the hatred of Great Britain that dwells in the secret hearts of the opponents of the league. They know full well that England's navy kept open the lanes of the ocean and saved civilization from the Hun. They know that German money financed the Sinn Fein rebellion and German rifles flashed from the lines of the Irish rebels who shot our allies in the back in 1917. They know that their admission of Hindu delegates lends encouragement to anarchy and assassination on the banks of the Ganges. But they manifest an eagerness to humble the British Empire they never manifested against the kaiser when his myrmidons were shooting down American lads in the valley of the Marne.

Maddened by the desire to humble Woodrow Wilson and inspired by their love for the million imported Huns who vote the republican ticket the senate Catlines have discarded the robe of reason and donned the red cap of revolution. From a spasmodic attack on the nation's president and the army's commander-in-chief they have progressed to that point in their insensate fury when their chosen leader pleads the cause of Hohenzollern on the floor of the American senate. The "Pennsylvania Dutch" now have their inning as Knox of Pittsburgh pleads for the Dutch of Europe. Not a word of praise has he for that "contemptible first army" that sleeps today in Belgian marshes from Charleroi to Mons. No regard has he for the 8,000 Canadians murdered in the first gas attack at Ypres. Not a word or thought for the Highlanders, who with their black dirks cut the Hindenberg line to pieces before Cambrai. Neither the first army, nor the Canadians, nor the Highlanders love the Hun or vote in American elections. Hence the martyrdom at Mons and Ypres must be forgotten and the lost legions of the first army ignored in order that a partisan may insult his president and advance his party's interest in a political campaign.

Notwithstanding the recreancy of the Pennsylvanian the entire nation in a way becomes his debtor because of his appeal for Wilhelm. He has clarified the issue. He who runs may read the animus of those fighting the treaty of Paris. They are the chosen champions of those who started from the frontiers of Luxembourg to the attempted conquest of the world. They are the friends of those who converted the territories of our allies into a charnel house. They have thrown away the deceptive mask they have worn in days gone by and declared their undying friendship for the Hun.

Reed of Missouri, who based his original opposition to the peace treaty on the alleged danger of negro domination, is no doubt highly gratified now that the senate committee on foreign relations is admitting negro delegates to plead for a guarantee of social equality.

Now that Aviator McNabb has been shot down on American soil by Mexican soldiers those heroic citizens who have been arguing that Americans have no right to enter Mexico will no doubt say that Americans have no rights on the soil of the United States.

Some of those century-plant patriots who contributed to various war funds only when driven to action by public opinion are now boasting of what great sacrifices they made in order to win the war.

Now comes the story from down east that chorus girls have struck for higher pay.

Oklahoma News: The more we read about the senate, the better we understand the word jazz.

Oklahoma News: The modern statesman doesn't take the bull by the horns. He toots his own horn, but the bull is there.

Milburn News: A thrill that comes once in a lifetime is that of a boy exhibiting a knuckle he bruised on another boy's face.

Durant Democrat: An inventor in Sweden has built a 700-pound affair that he styles a "baby aeroplane." The proof lies in the ability to keep a fellow up all night.

Holdenville, Democrat: Prices may have begun to come down, but we have not heard of any of them lighting in this neighborhood.

Miami News: When we get the proper teeth in that hoarding law, perhaps Palmer can persuade Holland to bring the kaiser out of storage.

Ardmoreite: If the people had to wait on a republican congress to reduce the high cost of living, starvation meanwhile would have solved the problem for most of them.

Lawton Constitution: Republican "investigations" are revealing some startling differences between the conduct of the Spanish-American war on a ration of "embalmed" beef and the winning of the world's greatest conflict on wholesome food.

Shawnee News: It is reported that the Miller brothers are to acquire a Mexican ranch. If they carry out their intention all that will be necessary to insure their permanent safety in the war zone is to put on one real good show—and they know just how to do it.

Eufaula Indian Citizen: "Investigations" into the war are popular with the present republican congress because they offer a hope of distracting the public mind to the past. Why don't the republican leaders show an equal interest in the high cost of living and other problems of the present?

Ardmoreite: Acting Governor Trapp has commuted the sentence of Caesar Killer, wife-killer, so that Caesar may get out of the penitentiary in a few months instead of staying there all his life. Inasmuch as almost any woman in Oklahoma can kill her husband and go free, as court records prove, why not be kind now and then to wife-murderers, particularly when they bear such suggestive names as Killer?

Pittsburg County Guardian: A man up in Muskogee declares that the United States is in honor bound to turn over that other \$7,500 of ransom money demanded by the Mexican bandits for releasing two American aviators they had taken prisoner. No matter how acute the ice shortage may be in Muskogee, somebody ought to put a large cake on this fellow's head. He's feverish.

Wewoka Capital-Democrat: The Capital-Democrat has received a card announcing the consolidation of the Ada Star-Democrat, owned by Senator Luther Harrison, formerly a resident of Wewoka and owner of this paper, and the Ada News. With the editorial forces of these two papers joined Ada has every reason to anticipate one of the best papers published in the entire state. Messrs. Harrison and Brown, who will have exclusive control of the editorial department, are two of the ablest men in the state.

## What Editors Think of Ferris

The Roosevelt Record, Kiowa County, August 15, 1919, F. J. Leasure, Editor.

Scott Ferris, representative from the Sixth district of Oklahoma for thirteen years, last week at Oklahoma City made the announcement that he would enter the race for the United States senate to succeed T. P. Gore. We know of no one more fitted to fill the position than Scott and we predict for him an easy conquest.

The Leader, Vinita, Craig County, August 14, 1919, F. S. E. Amos, Editor.

Scott Ferris will make the race for the United States senate against Gore. Well, it ought to be easy to make a choice in favor of Scott. He married a girl at Neosho, Mo., and has always been friendly to this part of Oklahoma.

The Frederick Leader, Tillman County, August 10, 1919, J. L. Newland, Editor.

Ferris has been the candidate to whom the people who have tired of Gore have looked as their champion. His candidacy comes after solicitation of friends for the past year, because he has been singled out as the man in the state conspicuously qualified by congressional training, but his standing in Washington and by his well known fitness for the position, proved thru a long and successful record in congress, to succeed Senator Gore.

If Senator Gore's record will cause him to be condemned by the

He is sure death with both rifle and pistol. As a fighter, he is the rare kind that gets cooler as the danger grows. He used to drink a little, gamble a little and swear. He quit in 1915 and joined the Church of Christ and Christian Union, of which he is second elder and singing leader. He was a conscientious objector. His captain convinced him in camp that it was his duty to act as the peacemaker in Europe. His "girl," Grace Williams, says: "It wasn't Alvin; it was the hand of God."

voters, Congressman Ferris' record, which is in bright contrast to the present senator's, should recommend him. Congressman Ferris has stood solidly behind President Wilson in his war for a world-wide democracy. He has never wavered in his support of the American army and navy. He has been the able champion of the boys in khaki, at all times and in all ways.

Nor is that all. His war record is merely an extension of a record of fealty to democratic principles, of strict adherence to American ideals, of loyalty to his constituents which has won him the unstinted confidence of the people.

Scott Ferris goes before the people as a man who need not be ashamed of his record, and as one for whom the people of Oklahoma have never had to apologize.

Senator Gore has outlived his usefulness to the people of Oklahoma as a United States senator. His logical successor is this sturdy American, this virile Oklahoman, this loyal democrat, this faithful and capable servant of the people, Scott Ferris.

The Bechito News, Bryan County, August 14, 1919, Jim Tom Story, and J. B. Story, Editors.

We have received a telegram from Hon. Scott Ferris, in which he informed us he had announced for the United States senate. He was in Oklahoma City and on his way to Washington to resume his seat in the house, in which he is one of its ablest members. Scott is a good man, and stands by President Wilson's administration "all along the line." He will thoroughly canvass the state between now and the next primary in August.

The American, Weleetka, Okfuskee County, August 14, 1919, C. E. Lee, Editor.

Senator Gore is a weak man and against any one of these opponents he would be defeated, because the great mass of the people of Oklahoma are dissatisfied with his course during the war. But the very number of his opponents may save him. The man who is "in" has a following of some numbers because of favors past and to come. There are a great many in Oklahoma, too, with whom the war was not popular, and they are naturally in sympathy with any person who used his position to weaken the prosecution of the war. With the votes of these men, Mr. Gore may be able to get more votes than any one of the three men who are opposing him and gain a re-election.

The Calera News, Bryan County, August 14, 1919, J. B. Simpson, Editor.

This announcement is not a surprise to the many friends of Mr. Ferris, and to those who are unfavorable to the re-election of Senator Gore. The home of both men is Lawton on the other side of the state. If there are no other candidates for the nomination for United States senator, it is freely predicted that Mr. Ferris will be the victor. A little later on the News will have much to say concerning the man who would be best for the people of the state.

The Sulphur Democrat, Murray County, August 14, 1919, W. J. Stevenson, Editor.

All eyes in Oklahoma are now trained on Scott Ferris, as the man to defeat Senator T. P. Gore in 1920. The recent announcement of Mr. Ferris has caused a great wave of enthusiasm to sweep the state, for all red-blooded Americans are loud in their acclaim that the blind man must be retired to private life in 1920. Ferris' announcement makes that prediction nearly true.

One thing, however, we must contend for and that is Ferris must

## Dangers of the Uncharted Seas Move Uncle Sam

AMERICA is just now embarking upon a great career as a maritime nation.  
It is spending billions for ships and bidding for men to enter the merchant  
marine. One of the first duties of every maritime nation is to furnish mari-  
ners with such data as will enable them to navigate the waters under its  
jurisdiction with the greatest possible safety. The obligation has not been  
discharged by the United States. Many lives and property worth mil-  
lions of dollars are lost annually be-  
cause the task of charting the con-  
stual waters of the United States and its  
possessions has never been completed.

Now that the war is over, the fin-  
ishing of this job is one of the most  
pressing necessities which the nation  
faces. Just before we entered the war the coast and geodetic survey cele-  
brated its one hundredth anniversary and went through some other motions  
designed to attract the public attention to itself and to the need for an ex-  
tension of its work. But with the declaration of war against Germany all this  
came to an end. Five out of the dozen or so small boats which the survey  
possesses were taken over by the navy for use as patrols, and more than half  
of the officers and men went with them, while those who remained were busy  
making special maps and surveys for the army and navy.

Now that the war is over the coast and geodetic survey is going back to  
its proper work with energy. Its largest and best boat, the Survey, is now  
on her way to Alaska via the Panama canal, and others are being repaired  
and refitted for work on the Pacific coast.

## CAPTAIN OKLA. U. C. V. SINGS ADA'S PRAISES

Sedalia, Mo., Aug. 31, 1919.  
Mrs. Mattie Brown,  
Ada, Oklahoma.  
My dear Mrs. Brown:

I find myself at home again after  
a most delightful visit during the  
great reunion of Confederate Veter-  
ans and Daughters of the U. D. C.,  
held in your beautiful and hospitable  
little city.

I have been to many such occa-  
sions in different parts of the coun-  
try, but I can truthfully say that  
I never saw an organization more  
perfectly handled—the smooth way  
in which all the machinery of the  
convention was handled was amaz-  
ing, indeed, your men and women  
uniting their efforts to produce the  
splendid results.

I must compliment the splendid  
Boy Scouts, who so nobly worked  
day and night to help. I saw those  
boys tenderly helping the old men  
with their coats or baggage and in  
and out of the cars and across the  
crowded streets as tho they were  
their own aged grandfathers and it  
was touching, indeed.

I congratulate your city upon  
having such boys, for they are to  
be our coming men, the ones to  
carry forward and establish your  
future citizenship.

I must not leave out the sweet  
southern girls, who also added their  
part of beauty and service for the  
never to be forgotten occasion.

From beginning to end, I could  
not see one thing forgotten or neg-  
lected that added to our comfort and  
pleasure.

To have been so highly honored  
by Oklahoma U. C. V. was indeed  
most highly appreciated. I have had  
many favors conferred upon me but  
none have been so greatly appreciat-  
ed as those conferred by the Veter-  
ans of Oklahoma. I only wish to  
prove always worthy, and I hope to  
meet you all again in Atlanta  
this fall.

I appreciate the beautiful horse  
given me to ride. In our great haste  
to meet the train, I did not have  
the opportunity to thank the owner,  
whose name I did not learn, and  
would ask you to kindly extend my  
thanks. I also was so sorry not to  
get to see you and your charming  
daughters again. I was glad to  
meet you again and enjoyed your  
beautiful reading so much.

To you all, I extend my thanks  
for a most gracious entertainment.  
I shall never forget Ada nor will  
I cease to sing her praises. To you,  
one and all, accept my kindest, best  
wishes for happiness and continued  
prosperity.

Capt. and Assist. Adj. Gen.,  
Oklahoma U. C. V.

Held on Bad Check Charge.  
Spence Parks and wife of Van-

for the defendant. Both defendants  
were held under \$500.00 bond for  
the action of the district court.

J. H. Whitson flushed the colored  
boys in the act of calling, bluffing,  
standing pat, et cetera, and con-  
fiscated some of the money, a few  
of the cards, and all of the con-  
testants. It was found when the  
case was called yesterday that all  
the interested parties were not ready  
for trial and the case was continu-

### THE YAGUARUNDI CAT.

"Friends, cat friends, if you find my name, my fine name of Yaguarundi cat is too long for you to say, call me Yag for short," said the Yaguarundi cat.

Now the other animals all looked pleased when Yag said that for he sounded nice and simple and natural to them. He didn't sound as though he would be a conceited and disagreeable creature in the zoo.

"Well," he said, as he looked about him, "what's the news? Tell me the news?"

Every other animal shook its head. "We don't know of any news," they said.

"No news," said Yag. "Gracious, that's too bad," said the other creatures. "We don't want to make you feel sad as soon as you arrive. You seem rather sad to hear of no news."

"Oh no, sorry but not sad," said Yag. "You see," said one of the other animals, "when a creature says:

"What's the news? It's so hard to think of anything to tell them, whereas if they don't say anything somehow we think of it."

"I'm sorry I spoke," said Yag.

"Oh, you needn't be," said the other animals who had been talking. "It's only a curious thing about animals and children and grown-ups that when they're told to talk they haven't so much to say for themselves."

"We'll think up some news before long," one of the other animals said.

"Oh, yes," they all agreed. "We'll surely tell you something most interesting. You're stopping for quite a call, aren't you?"

"Oh, yes," said Yag. "I've come to the zoo for a good long visit. I will stay—oh, a long, long time."

"Perhaps," said the other animals. "You'll tell us the news. Wouldn't that be nice?"

"Would you like to hear my story?" asked Yag.

"Oh, do tell it to us," the others said. "I came from Texas, if any one would like to know that," he began. "There aren't many of my family in zoos. No, we don't live much in zoos—that is—few of us ever do. But I must go on. I don't suppose you want to hear the same thing over and over again that we don't often, often, often live in the zoos."

"But I like it here, though the creature I am something like can't bear it I've heard. That is he is very much bored by it and is always restless and trying to wander off or dig his way out."

"You all know I am something like the otter. Well, if you don't know it, I am telling it to you so you will know it. Good of me, eh?"

And the Yaguarundi cat grinned, a wide grin.

"Ah, yes," said Yag. "I have a sort of brown coat something the color of Mr. Otter's coat. We don't go to the same shop for our clothes, ha, ha, nor to the same tailor."

All the animals grinned.

"We wouldn't go to a shop or to a tailor because there aren't such things in the animal world. No, we don't have foolish and silly styles. We get a certain kind of a coat and we wear it all the time, and our families all dress alike so folks will know us when they see us."

"People aren't nearly so considerate. People dress in all sorts of different things and differently from year to year. You couldn't tell one family of people by the way they dress, could you?"

All the creatures shook their heads.

"But you could tell my family by our gray-brown coats without any spots or any trimmings, just nice, simple, good-looking suits do we wear, yes, we do."

Warranted to Stand Rain.

Trouble is a test of character. The girl who is sweet and smiling as long as everything is to her liking, and turns impatient as soon as trouble comes, needs trial and disappointment to introduce her to herself. Character that is not warranted to stand rain without spotting is worth very little.

—Girls' Companion.

Must Have Paralyzed the Waiters.

"I don't believe everything these young officers tell me about their experiences abroad."

"Why should you?"

"For instance, Lieutenant Jobbies says he found his high school French a great help to him when he visited Paris."—Birmingham Age-Herald.

The Net Result.

"Why are so many of these former war lords writing books?"

"I suspect," said the sarcastic citizen, "that they are trying to show how much better their hindsight is than their foresight." — Birmingham Age-Herald.

Demand Exceeds Supply.

There is always a place for ability. There is always room for industry. There is an unceasing demand for honesty. The girl who is not wanted, proves that she lacks in some of these essentials. The supply of earnest and efficient workers whose integrity is beyond question has never yet equaled the demand.—Girls' Companion.

An Obsolete Custom.

Royalty has fallen so much into disfavor that you couldn't get an American boy to name his dog Prince.

## JAPS ARE HUNS WOMAN CHARGES

### AFTER THREE YEARS IN KOREA, RETURNS TO TELL OF THE CRUELTY OF JAPANESE PEOPLE.

"The Japanese are the Huns of the East!"

"Japan is the most cruel nation in the East and wants to rule the world."

After three years in Korea, these are the impressions of a prominent Denver woman who has just returned home. She tells a thrilling story of the cruelties of the Japs to the natives of Korea and urges that the facts in the maltreatment of Korea by Japan be spread broadcast among the American people that public sentiment may compel the Japs to withdraw from Korea.

"Japan is afraid of public opinion," she says. "That is all she is afraid of. She makes promises as glibly as did the Stuart kings and just as glibly says, 'I didn't intend to do that anyway.'"

"When Japan annexed Korea it was a piece of highway robbery. Roosevelt was president and understood the situation; so did one prominent English statesman. But both just winked at it. The Japs persuaded Roosevelt to recall Dr. Allen and Horace Newton, the only diplomats in Korea who understood the Japs, got along with them and all the time foisted their plans. Ever since Dr. Allen was sent away the Japs have had their way."

"In February the ex-king, a prisoner in his own palace, died suddenly. He was dead for several days before it was announced—which points to Japanese work. Some say he was poisoned and others say he took his own life to save his only living son from being married to a Japanese princess."

"The Japs took the son to Japan when he was only a youngster and engaged him to this princess. The marriage of a Korean to a Jap gives their children no standing at all—they are neither Japanese nor Koreans. So, that with the king dead and the only son married to a Japanese, there would be an end to the Korean dynasty."

"There were many thousands in Seoul to attend the funeral of the king the first of March. Demonstrations were staged in various places. In Ham Heung, Korea, where I was, policemen, thugs with firemen's apparatus, hooks, etc., rushed upon the people when the uprising started. Then they began to beat and shove them. Koreans were beaten with clubs, hooks—anything the Japs could lay their hands on. Men's heads were smashed, jaws broken, men were dragged, kicked and arrested. This continued for several days. More than 500 were put in prison, where there was no sanitary arrangements or room enough to lie down."

"There was not a moment, day or night, when the screams or groans of those who had been beaten or tortured or trampled on were not heard. It was akin to the Spanish Inquisition. And they will continue to torture these unfortunates until they find some one who will say the missionaries were responsible for the uprisings. Christians have been sentenced to from six months to two years in prison at hard labor."

"Over on the other side of the state, it was a religious persecution. The Japs tore up Bibles, destroyed churches, besides killing people. Two missionaries were arrested and one was put in for six months' imprisonment at hard labor."

"The Koreans did not throw a stone or even speak impudently to the Japs until the latter were killing the Koreans by the hundreds. In one place five men were found dead under a pile of forty dead men. One man in Jyeungang suffered eighteen bayonet wounds."

"When I was last in Seoul I heard a Jap saying to a crowd on the street: 'The emperor of Japan is God. He knows everything. We will rule this country and China. We will show Europe and America something.'"

"That's the spirit of Japan now. The Japs hate America and President Wilson."

CIVIL ACTION TRIED BEFORE JUDGE BROWN

Brydia vs. Rogers was the style of a civil action tried before Justice Brown yesterday. Fred F. Brydia, the plaintiff in the action, alleged that he had a contract with Floyd Price Rogers and N. E. Rogers to sell some real estate belonging to the latter and located in the city of Ada, and was to receive a commission of 5 per cent for his services. He alleged further that he found a purchaser for the property and went to the expense of having the abstract brought down to date, but that defendants had in the meantime proceeded to sell the property to a purchaser of their own choosing. Wherefore he brought his suit for \$149.75.

The case was tried before a jury consisting of P. L. Cassidy, F. A. Word, T. J. Chambliss, R. J. Gorgin, A. H. Chapman and Walter Simmons. Plaintiff was represented by B. C. King, while J. F. McKeel represented the defendants. The jury's verdict was for the defendants.

Pretty dresses, lovely suits, the new plush capes for early fall wear, a most wonderful showing of ladies' headwear, new sweaters—the newest to be had—can be found at Pelter's Fashion Shop.

### NEW DESIGN FOR SMART BAG

Receptacle Will Be at Its Best in Black and Gold Ribbon, or Silver Brocade.

This bag is extremely smart and at the same time very easily made. It looks particularly well in ribbon of black and gold or silver brocade, as in our sketch.

One yard of ribbon is required about 9 inches wide. This you double in halves wrong side out, and stitch up both sides within 7 inches of the top, and turn out.

Next cut lining same shape, allowing ½-inch turnings. This you also join within 7 inches of top. Place

Novel Bag.

this inside bag. Now get a bone ring, either in black or color, and put one side of the bag through; after this is done, stitch to the other side, making a seam in the ordinary way, with turnings wrong side. Join up your lining in the same way, seeing that your turnings are outside, so that when lining and ribbon are placed together both lining and bag are perfectly neat, with bone ring between both.

All that is now required is to slip-stitch opening at sides of bag neatly together, when the bag will be ready for use.

### BLACKS AND BROWNS AGAIN

Sober Colors Just Now Showing a Revival of Popularity Hard to Account for.

Why the recent vogue for black evening frocks?

At the present time there is just the right setting for colors so brilliant and colorful—and gaudy, if you will—as to suit the most primitive of us. Fact is, dark colors were put on the shelf when the armistice was signed and there was a striking showing of colors of brilliant hue.

But these new black frocks that a good many smart women are getting are rather different. They are of lace and they are sometimes trimmed with brilliant ribbon or silk sashes. They are as diaphanous and as sprightly as the wing of a dusky butterfly. Still they are black, and it does seem strange that one should want to wear black when peace has come and summer is here.

But even odder is the persistence of the brown frock. This made its appearance just before the end of the war, and it was extremely smart, but with the craze for bright Victory colors it went into short retirement, only to blossom forth more interesting than ever. And this is even stranger because now that it is summer one would think that brown, which is warm, if any color ever was, would have no place in our wardrobes. But somehow it is true that the brown frock even in the evening has a certain distinguished appearance that is hard to account for.

Sometimes it is a golden brown that goes very well with metallic gold and bronze tissue in evening gowns, and sometimes it is more of a reddish brown. And by the way there is an accent on that "e," giving to the word three syllables, a fact that does not seem to be recognized by all who speak of the color.

LATE IDEAS IN MILLINERY

Among Them Is a Pretty Hat of Versailles Blue—Ostrich Trimming Used Effectively.

Many novelties are included in the lines of high-priced millinery that are being shown in New York for the fall season. One novel hat in Versailles blue is a rather small shape with the brim folded back on four sides, the up-turned faces of which are trimmed with beautiful bending. At each corner is a fancy bit of coque in a brilliant shade of blue and orange. Interlacing in a basket weave effect is used in many interesting ways in other hats displayed. Ribbons are much used for this purpose, as are bias folds of velvet. One model of this type is a high-front turban with the top interlaced in brown and orange. Rows of ostrich trimming cover the front and give a novel effect. Another novelty seen is a "tam" of black and terra cotta duvetyne.

Bead Embroidery.

Pearl bead embroidery is in high favor in France. Gray and black pearls are embroidered on the lace that trims a smart evening gown of black chiffon over white satin, and a charming little day dress of old blue crepe de chine has insets on the sleeves and in the middle of the blouse made of black pearl beads embroidered on white background.

Reasoning From Kittens.

Little Edward's twin sisters were being christened. All went well until Edward saw the water in the font. Then he anxiously turned to his mother and exclaimed: "Ma, which one are you going to keep?"—Blighty (London).

Chicory.

In some parts of Cape Province, South Africa, chicory gives a yield of \$250 to \$300 per acre, Johannesburg being the chief market.

## PRICE FIXING IS THE MAIN TOPIC

### INTERNATIONAL FARM CONGRESS TO TAKE ACTION ON WHEAT PRICES FIXED BY CORPORATION.

By the Associated Press.

KANSAS CITY, Mo., Sept. 4.—The probability that delegates to the International Farm Congress, which meets here September 25-27, will take definite action in the controversy over wheat prices fixed by the United States Grain Corporation, was indicated in a statement made by W. I. Drummond, general manager of the congress, which accompanied the announcement that Julius H. Barnes, president of the grain corporation, had accepted an invitation to speak here.

Following a round table discussion of wheat prices, in which farmers and others attending the congress will be given an opportunity to question Mr. Barnes at length, "the congress may take action in the form of passing resolutions either in approval, in disapproval, or suggesting changes," in the corporation's price-fixing policy, according to Mr. Drummond.

The controversy developed in the Mississippi Valley at a critical time when it seemed the much-heralded yield of wheat this year would grade lower than No. 2. Opposition to the grain corporation's policy in price-fixing, which, although more than doubling the pre-war price on No. 1 wheat, had also made a difference of more than double the pre-war margin between each grade of wheat, came particularly from official quarters in Missouri and Kansas and from some of the leading farm papers in the two states.

Dr. H. J. Waters, formerly dean of the Kansas State Agricultural school led the opposition to what he termed an overturning of customs set by years of marketing experience between producer and buyer.

The contention of Dr. Waters and of other opponents was along this line: Under the usual system of marketing practiced before the war, it had become customary to make a difference of about one cent a pound between each grade of wheat. When a standard price on No. 1 wheat, now more than double the average price of pre-war days, was set by President Wilson, the fixing of relative prices on lower grades was left to the discretion of the United States Grain Corporation, which fixed prices for those grades in the same ratio of increase which determined the increase in price of No. 1 wheat. This system of establishing standard prices, however, made a difference of about three cents a pound between each grade of grain, whereas the opponents of that policy asserted that, in determining the prices for lower grades of wheat, the grain corporation should have followed custom and marked the down scale of prices by one-cent difference in each grade.

The grain corporation, it is said, contended that the ration of increase should be maintained for each grade. It was contended for illustration that if pre-war prices on No. 1 wheat were \$1.00 and on No. 2 wheat 99 cents, and the price of No. 1 should have been doubled to \$2.00, then the No. 2 price also should be doubled, making it \$1.98. Leaders of the opposition are contending that the one-cent difference should be maintained, which on that basis would put No. 2 wheat at \$1.99.

The reason for this opposition, according to Dr. Waters, was apparent. In the critical days just before the harvest, it seemed to farmers and farm leaders that weather conditions would lower the grade of the big bulk of grain harvested in Kansas and Missouri to No. 3 and No. 4 grades, when a No. 2 grading had been anticipated. Under the grain corporation's policy, No. 4 wheat would have sold at nearly six cents a pound under the No. 2 price, a loss of practically four cents a pound in the difference in prices fixed by the corporation and prices declared to be fair and in keeping with market custom by those who opposed the government price standard. It would, according to Dr. Waters, have meant a loss of millions of dollars to farmers of the Middle West.

These fears of wheat being of low grade fortunately were unfounded because of improved weather conditions, and something of a lull in the controversy followed, but, according to Dr. Waters, the principle of the corporation's price fixing policy is wrong and when the opportunity is given to question Mr. Barnes, he declared the leaders of this opposition will put Missouri and Kansas farmers clearly on record as to their position in the matter of fixing prices on lower grades of wheat.

LESSON FOR OCTOBER 5

JOHN AND PETER BECOME DISCIPLES OF JESUS.

LESSON TEXT—John 1:29-42. GOLDEN TEXT—Jesus said unto him, follow me.—John 1:43.

ADDITIONAL MATERIAL—Matt. 9:9; Mark 2:13-17; John 1:43-51.

PRIMARY TOPIC—Finding the best friend.

JUNIOR TOPIC—John and Peter decide to follow Jesus.

INTERMEDIATE TOPIC—Becoming disciples of Jesus.

SENIOR AND ADULT TOPIC—Claims of Christ upon all men.

I. John the Baptist Testifies to His Disciples Concerning Jesus (vv. 29-34).

1. Jesus as the Lamb of God (v. 29). "Lamb" was familiar to the Jewish mind. It denoted a substitutionary sacrifice for sin. Christ was the true lamb to which every sacrificial offering pointed. He was the lamb which Israel showed should be brought to the slaughter (Isa. 53:7), upon whom the Lord laid man's iniquity. Christ was God's lamb because he was the one set apart from the foundation of the world to make atonement for man's sins (1 Pet. 1:18-20). John invited his disciples to behold the Lamb of God.

2. The Baptizer with the Holy Ghost (vv. 30-35).

The Spirit descended upon him as Isaiah said (Isa. 11:2). John then knew for a certainty that he was the baptizer with the Holy Ghost. The same Holy Spirit will be given to all who ask for him (Luke 11:13).

3. Jesus is the Son of God (v. 34). Being the son of God he is one in nature with God.

II. Two Disciples Following Jesus (vv. 35-37).

As a result of the Baptist's testimony, two of the disciples leave him and follow Jesus. At John's request they looked. This look was sufficient to induce them to follow Jesus. A sincere look upon Jesus is always sufficient. John did not become envious of Christ's success, but rejoiced in it (John 3:26-29). All Sunday school teachers should so witness that the pupils will look to and follow Jesus. This is the whole method, the sum and substance of salvation.

III. The Disciples Abiding With Jesus (vv. 38, 39).

Seeing the disciples following him, Jesus made inquiry as to their object. Their reply showed the desire to go apart privately where they could disclose their hearts to him. He invited them to his abode, where for the remainder of that day they enjoyed sweet intercourse with him.

IV. The Disciples Bringing Others to Jesus (vv. 40-42).

Having found by experience what fellowship with Jesus means, they go at once and tell others of their price-less treasure.

1. Andrew brings Peter (vv. 40-42). Peter was Andrew's brother. A true brother who has found Christ will go and tell his brethren. The proper place to begin witnessing for Christ is among one's kinsfolk (Luke 8:59).

(2) Philip brings Nathaniel (vv. 43-45). He witnessed to him concerning the messiahship of Jesus. He told them that Christ was he of whom Moses and the prophets did speak. Christ is the sum and substance of the Old Testament.

The disciples invited others to come and see. They knew that if they would but put Jesus to the test they would believe. Christianity courts investigation (John 7:17).

When Life Grows Broader.

God does not count prosperity as we count it. Our sense of proportion is largely shaped by our experiences. When life is quiet and sheltered, and the stream runs smoothly, we notice every ripple and magnify every small obstruction. We are fully occupied with our work, our small worries. Then comes some grief, calamity, or new responsibility which suddenly changes everything. Our old interests are dwarfed and look so petty that we wonder that we ever allowed such trifles to burden our souls. By such experiences life grows broader and higher and takes on new values. We have new standards of measurement for our fellow men as well as ourselves.

The Bible.

God might, of course, have given us a literally divine book, written by his finger on tables of stone. We find that he chose to give us instead a library of books by human authors, with very different styles and characteristics. I cannot help connecting it with the equally obvious act that he did not reveal himself by an angel, or millions of angels, but by a man who worked in a carpenter's shop.—Rev. J. H. Moulton, D.D.

Cheerfulness.

Better to be small and shine, than to be great and cast a shadow. Cheerfulness is God's medicine. Everybody ought to bathe in it. Grim care, anxiety and all the rest of life can be scoured off with the oil of cheerfulness.

Love Never Tires.

Love is indefatigable; it never tires. Love is inexhaustible; it lives and is born again of itself, and the more it pours itself forth, the more it abounds.—De Lameunais.

## OLD DOBBIN TO GET THE CREDIT DUE HIM

By the Associated Press  
CINCINNATI, O., Sept. 4.—Old Dobbin is going to get due credit for the part he played in winning the war, at the forty-seventh annual convention of the Carriage Builders' National Association, Chicago, September 23 to 27. One of the principal addresses will be that given by Walter Goodnow, of Chicago, on "The Horse and Future Outlook."

Mr. Goodnow will quote Generals Pershing, Poch and other famous leaders, who declared that without their equine friends the allies would have had a hard time overcoming the enemy. The Chicagoan and other speakers will say that it has been definitely settled that the horse will always maintain his place in the affairs of men and cannot be dislodged by the invasion of the automobile, and that today there are more horses in the United States than ever before.

The carriage trade, too, is in a highly prosperous condition, according to Geo. W. Huston, of Cincinnati, and manufacturers are having great difficulty in filling orders the chief business coming from the South, where the buggy is said to be as popular as of yore.

## ELEVEN GREAT CHURCH BODIES TO HOLD MEET

By the Associated Press  
DETROIT, Mich., Sept. 4.—Eleven great church bodies, exclusive of the Roman Catholic, will participate in the great new world church conference on faith and order, to be held in 1920, according to a report to be presented at the general convention of the Episcopal church here, Oct. 8 to 27.

The heads of these organizations according to the report, have signed pledges presented by the world touring Episcopal bishops, to co-operate in the conference. The report adds that the Episcopal delegates were courteously received by the pope, who expressed approval of the conference as a means of getting together all communions "not in union with the chair of St. Peter" but held that the teachings and practices of the Roman Catholic church precluded its participation.

The 1920 conference, it is stated, will be the largest ecumenical council in the history of the world, each of the eleven church bodies attending embracing from two to twenty autonomous churches. The eleven great bodies are: Anglican Baptist, Congregational, Eastern churches, Friends, Lutherans, Methodist, Moravian, Old Catholic, Presbyterian and Reformed South India United church.

## Wisdom in Quotation.

Bartlett, in his "Familiar Quotations," gives the following: "We read of a certain Roman emperor who built a magnificent palace. In digging its foundation, the workmen discovered a golden sarcophagus ornamented with three circles, on which were inscribed, 'I have expended; I have given; I have kept; I have possessed; I do possess; I have lost; I am pained. What I formerly expended, I have; what I gave away, I have.'—Gesta Romanorum, Tale XVI."

## Rainy Seasons in Cycles.

According to Eduard Brueckner, the great Austrian meteorologist, cold, rainy seasons come in cycles about every thirty-five years, the years nearest to these partaking of their nature and those furthest distant being dry and hot. The year 1915 was the height of one of these cold, wet cycles.

## Election Proclamation.

Under and by virtue of Section 27, Article 10, of the Constitution of the State of Oklahoma, and Ordinance No. 425 of the City of Ada, said State, authorizing the calling of an election for the purpose hereinafter set forth, approved the 19th day of August, 1919, I the undersigned, Mayor of said city, hereby call an election to be held in said city on the 18th day of September, 1919, for the purpose of submitting to the qualified property tax-paying electors of said city the following propositions:

PROPOSITION No. 1. Shall the City of Ada, State of Oklahoma, incur an indebtedness by issuing its negotiable coupon bonds in the aggregate principal amount of \$250,000.00 Dollars for the purpose of providing funds with which to enlarge and improve the present Water Works System, owned by said city, by acquiring the necessary material and doing the necessary work for installing additional water mains and water works facilities, to be owned exclusively by said city, and levy and collect an annual tax, in addition to all other taxes, upon all the taxable property in said city, sufficient to pay the interest on said bonds as it falls due, and also to constitute a sinking fund for the payment of the principal thereof when due, said bonds to bear interest not to exceed the rate of five and one-half per centum per annum, payable semi-annually, and to become due within twenty five years from their date.

PROPOSITION No. 2. Shall the City of Ada, State of Oklahoma, incur an indebtedness by issuing its negotiable coupon bonds in the aggregate principal amount of \$75,000.00 Dollars for the purpose of providing funds for the construction of Sanitary Sewer Mains and Sub-Mains and Storm Sewers, and Sewage Disposal Plant for the use of said city as public utilities, to be owned exclusively by said city, and levy and collect an annual tax in addition to all other taxes upon all the taxable property in said city, sufficient to pay the interest on said bonds as it falls due, and also to constitute a sinking fund for the payment of the principal thereof when due, said bonds to bear interest not to exceed the rate of five and one-half per centum per annum, payable semi-annually, and to become due within twenty five years from their date.

PROPOSITION No. 3. Shall the City of Ada, State of Oklahoma, incur an indebtedness by issuing its negotiable coupon bonds in the aggregate principal amount of \$10,000.00 Dollars for the purpose of providing funds with which to improve a Park Site to be used as a public utility and owned exclusively by said city, and levy and collect an annual tax, in addition to all other taxes, upon all the taxable property in said city sufficient to pay the interest on said bonds as it falls due, and also to constitute a sinking fund for the payment of the principal thereof when due, said bonds to bear interest not to exceed the rate of five and one-half per centum per annum, payable semi-annually, and to become due within twenty five years from their date.

PROPOSITION No. 4. Shall the City of Ada, State of Oklahoma, incur an indebtedness by issuing its negotiable coupon bonds in the aggregate principal amount of \$10,000.00 Dollars for the purpose of providing funds with which to improve a Park Site to be used as a public utility and owned exclusively by said city, and levy and collect an annual tax, in addition to all other taxes, upon all the taxable property in said city sufficient to pay the interest on said bonds as it falls due, and also to constitute a sinking fund for the payment of the principal thereof when due, said bonds to bear interest not to exceed the rate of five and one-half per centum per annum, payable semi-annually, and to become due within twenty five years from their date.

Mrs. J. L. Fain, who has been taking treatment at Oklahoma City, returned home much improved Sunday.

Mrs. Beech was taken to Oklahoma City for medical treatment Sunday.

The Baptists closed their meeting here Sunday night.

Geo. H. Priest was a visitor at the home of Mr. and Mrs. Sam Mayfield near Union Valley Friday night.

Miss Nell Robinson visited at Lovelady Saturday.

Walter Arnold went to Frisco Sunday.

The Holiness meeting at Haskell is still in progress with a large attendance.

A heavy rain fell in this section Friday but did no particular damage.

Miss Louise Clark went to Ada Friday, returning Sunday via Stone-wall.

Bring your clean cotton rags to the Ada News office. We will pay you 3c a pound.

BILL NYE.

WE had a complaint today in regard to charging 20c for 25 pounds of ice; if this has been done it was a mistake on the part of the driver, as we do not want you to pay more than our schedule rate.

Twenty-five pounds of ice at 70 cents per 100 pounds would be 17½ cents, and the driver could probably not make change for this amount. The driver should give you about thirty pounds for 20 cents. Let me suggest, therefore, coupons would be considerably cheaper, that coupons be used—this would make 25 pounds of ice cost you 16-2-3 cents.

We have delivered written instructions to our drivers to discontinue this practice and to give back even change, as near as possible, where 25 pounds of ice is necessary.

Yours very truly,

A. MARSHALL, Manager

### SOCIETY.

Miss Mildred Miller was at home to the Tuesday Bridge Club this morning at her home, 518 South Broadway, and her guests were, Mrs. Byron Sledge, Mrs. W. K. Chaney, Mrs. A. T. Boggan, Mrs. H. W. Wells, Miss Ruth Case, Miss Moss Wingo, Miss Gladys Ridling and Miss Constant Sasey of Spokane, Washington, who is the houseguest of her cousin, Dennis A. Davis, 722 South Townsend.

Mrs. E. C. Hunter, South Ada, entertained Wednesday with an afternoon of bridge, in compliment to her mother and sister, Mrs. Parish and Mrs. Felder of Huntsville, Texas, who have been her houseguests for several weeks and who will be returning home the latter part of this week. Additional guests were Mrs. I. M. King, Mrs. W. K. Chaney, Mrs. S. H. Phillips, Mrs. Johnson, Mrs. John Case, and Mrs. W. H. Ebey.

### COTTON PICKING IN FULL SWING SOON

With cotton picking on a small scale reported in progress already in Pontotoc and adjoining counties, farmers in this part of the state are planning for the first rush of picking to be in full swing within two weeks. Except for a few scattered cases, cotton is hardly ready for picking yet, but the time is approaching rapidly.

A labor shortage is predicted by those in touch with the farm situation. It is not believed that it will be severe enough to cause a loss in the crop, although wages will be advanced.

## ALL WAR WOMEN TO AMALGAMATE

WAR MOTHERS OF AMERICA, MEETING IN BALTIMORE, NUCLEUS OF A WIDER ORGANIZATION.

By the Associated Press

BALTIMORE, Md., Sept. 4.—Amalgamation of all organizations of women relatives of the men and women who served in the United States army and navy during the world war will be proposed at the second annual convention of the War Mothers of America, which will be held here October 7, 8 and 9. The call for the convention of War Mothers, just sent out, invites all organizations of a similar nature to attend the convention and join in the formation of a new body for which a new name may be selected.

Representatives of five other organizations besides the War Mothers, including the Daughters of Liberty, Women of American Patriots, Women's Patriotic League of America, American Mothers of National Defenders, and Sammie's Mothers have been asked to participate in the movement for consolidation.

The Baltimore chapter of the War Mothers of America is making preparations for entertaining the convention. Several speakers of national prominence will be included in the program and there will be several social features.

Mrs. A. W. Roach, acting national president of Richmond, Ind., reports that large delegations will represent all the chapters of the War Mothers and she has been in communication with officials of the other organizations urging them to attend the meeting here. Twenty-seven states were represented by delegates sent to the first annual convention held at Evansville, Ind., last September.

Among the social features already planned by the Baltimore chapter is a visit to Annapolis and the governor's home, automobile rides to Evergreen, the Red Cross school for soldiers blinded during the war, a trip through Druid Hill Park and a visit to Johns Hopkins University.

### The Main Point.

Eve had formed the bad habit of running away, so to impress her fully with the danger of so doing, her father took her on his knee and told her the story of Charlie Ross—how he was coaxed away from his yard one day by a man who promised him some candy and he never came back to his parents. She listened intently, and at the close of the story she looked up and asked: "Well, did he get the candy?"

### Nostalgia.

A young Swedish girl was very homesick. "You ought to be contented, and not fret for your old home, Ina," said her mistress, as she looked at the dim eyes of the girl. "You are earning good wages, your work is light, every one is kind to you, and you have plenty of friends here." "Yes, ma'am," said the girl. "But it is not the place where I do be that makes me vera homesick; it is the place where I don't be."

### The Maliciously Inclined.

Malicious people are of two types—the actively malicious and the passively malicious. Between the two there is a difference not of kind but merely of degree. The actively malicious are people who delight in belittling and injuring others, whether by petty gossip or outright slander. The passively malicious find a strange pleasure in hearing of anything that is to the discredit of other people.

### Temperature of Leaves.

Some recent investigation of the temperature of leaves made in the deserts and mountains of Arizona and in the Santa Lucia mountains of California have resulted in the discovery that leaves show a very rapid change of temperature at times. These fluctuations are almost constantly going on. Changes of from 1 to 3 degrees centigrade were observed in from twenty to sixty seconds, and if a moderately strong wind is blowing the change may amount to 5 degrees in thirty seconds.

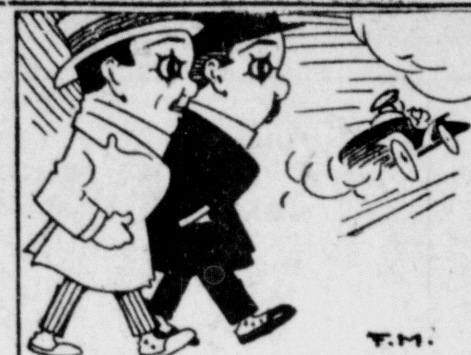

### Some Remarkable Shooting.

A play was being given by a group of soldiers, the hero of which was to shoot blank cartridges at a row of bottles standing on a shelf, while another soldier, well concealed, was to break each bottle in turn with the point of his bayonet, thus pretending that the hero was shooting the bottles. Through some misunderstanding the hero started shooting at the wrong end of the row, while at the other end the bottles were being broken.

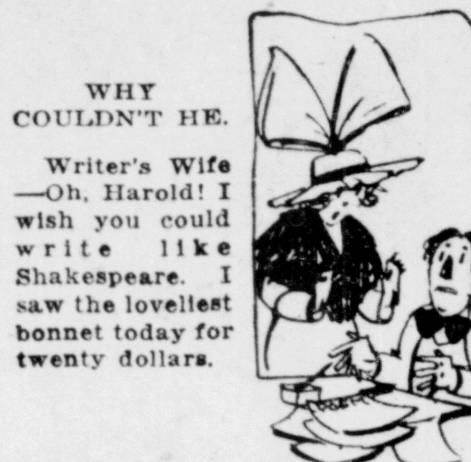

### Left Foot Largest.

Your left foot is larger than your right,—in 99 cases out of 100. Science explains it in many ways; but we accept the easiest one, which is that we are a world of left-footed loungers. We lean against posts and door jambs and we do most of our leaning on the left foot; consequently, through the years it has grown to support the weight that the lazy right foot doesn't. The next time you buy shoes, have your left foot measured first.

NOT TOO MILD.  
"Don't you enjoy listening to the honk of the wild goose?"  
"Not when he's driving an automobile."

WHY COULDN'T HE.  
Writer's Wife  
—Oh, Harold! I wish you could write like Shakespeare. I saw the loveliest bonnet today for twenty dollars.

THEY ALWAYS DO.  
I like your husband very much, he seems to be such a jolly fellow.  
Oh, yes! He's been jollying me for years.

CAN AVOID IT.  
They talk of concrete furniture  
Poured with the house,  
gee whiz!  
Well, in the dark you may be sure  
Exactly where  
it is.

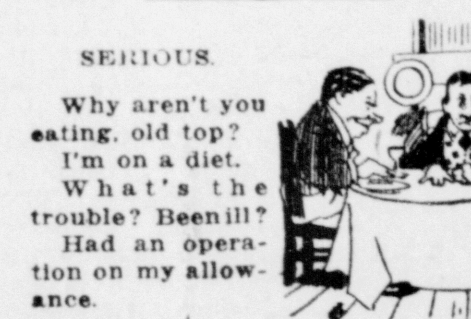

GETS IT AGAIN.  
On the street today a very handsome young lady smiled at me.  
Oh, I wouldn't feel badly about it. There are some men who look even funnier than you do.

A HOT ONE.  
My wife's been nursing a grudge all the week.  
Been laid up, have you?

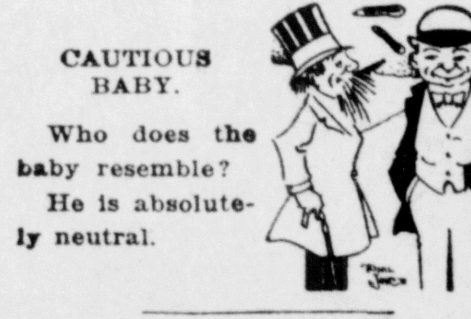

MORE NOURISHING.  
The poet's lay may be all right.  
To some it seems a crime.  
For downright usefulness I'll take  
The hen's lay every time.

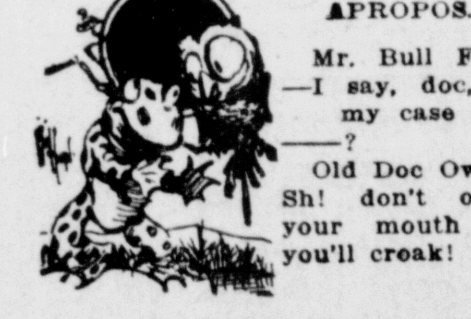

SERIOUS.  
Why aren't you eating, old top?  
I'm on a diet.  
What's the trouble? Been ill?  
Had an operation on my allowance.

THE THINKER.  
She has ideas of her own.  
Indeed. What a disagreeable person.

ous?  
Old Doc Owl—Sh! don't open your mouth or you'll creak!

PRETTY LARGE.  
What big ears he has.  
So big that his head seems merely a connecting link between them.

## PROSPECTS ARE FINE FOR ADA HIGH SCHOOL

That Ada High School will have the best year in its history is the prediction of Mr. Fentem, the efficient high school principal. He was seen this morning at the high school building up to his ears in work preparing for the opening of the term Monday, September 15.

"We have the best faculty our high school has ever had," said Mr. Fentem. "Conceding the splendid work done heretofore and admitting the efficient service rendered by prior teachers, we are still convinced that we have this year the best faculty in the history of the school. This is true with reference to their scholastic attainments, experience and organizing ability."

"We will have fourteen teachers in the faculty. This will give us two teachers for each classical department, which fact will enable the teacher to give each pupil what he individually needs. Then we will have vocational teachers specially prepared and employed in conformity with the requirements of the Smith-Hughes bill. Each of our teachers has been doing special work thru the summer at some of the best technical schools in the United States. It may be said that Ada High is one of the first to get this government aid for vocational training."

"Our vocational work will be divided into three departments—agriculture, manual training, and domestic science. Each of our teachers in this work is an expert and we are expecting great things in this branch of instruction. We are adding quite a lot of equipment to these departments and each student will have all the necessary apparatus to do efficient work."

"Our enrollment for the year will no doubt pass the 300 mark. This will give us a larger enrollment than several cities with a larger population. When we remember that Ada has a state institution attended by many students who would otherwise attend our high school, this enrollment is very gratifying."

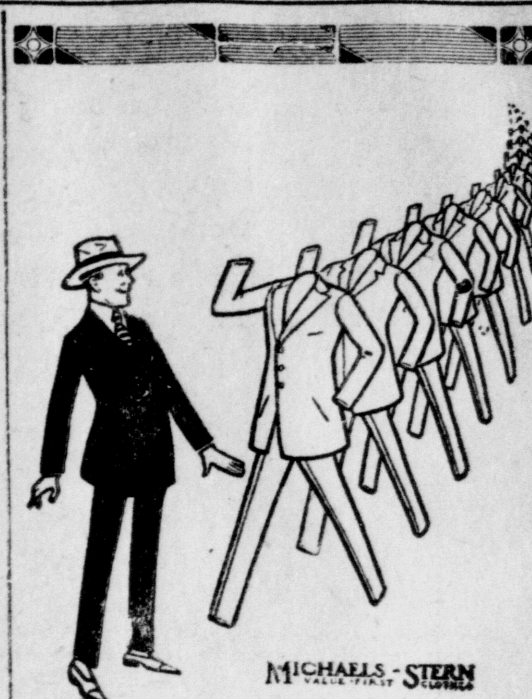

"We are expecting a great year in athletics. Much additional equipment for athletics is being added, especially for girls' athletics. We have just received a handsome shipment of dumb bells and Indian clubs with a lot of other necessities. Hot and cold showers are now being provided for both boys and girls. Our tennis courts have been improved, the athletic fields will be worked over this week, and we will soon have an ideal city playground suitable for use at all times of the year."

"Our high school has had a course of entertainments every year for several years past, and we are glad to say that our course for this year will bring some exceptionally strong talent to Ada. In January we will have Irvin S. Cobb, and he will be followed in March by former president Wm. H. Taft. We are sure the pupils will appreciate the coming of such talent."

The high school building resembles a work shop or a factory today. Painters, paper hangers, carpenters and plumbers are busy renovating the building, rearranging departments, and getting everything in readiness for the opening year. The building is among the best located in Oklahoma. The splendid grounds with which it is surrounded makes its location an ideal one for high school purposes.

## You can economize in clothes

THE high cost of clothes is not the price you pay for them; it's what you get for your money.

If the clothes don't wear, don't give you good service, they're expensive at any price. You can reduce the cost of clothes by being particular about what you get for what you spend.

Get all-wool fabrics and high-class tailoring; nothing else wears so well. Get good style; a good appearance is economy. You'll get all these things here in Hart Schaffner & Mark clothes; complete satisfaction or money back.
